

MATER OLBIA®

INFORMATION TO CUSTOMERS POSITIVE RESULTS IN THE COVID-19 TEST

In the event of a positive response to the rapid antigen test, Mater Olbia Hospital will carry out the molecular analysis of the same swab (*at no additional cost for the user and without the need to return to the site for a further sample*). Molecular swab results will be emailed *within 6 hours*.

As required by current legislation, Mater Olbia Hospital, in the event of a positive outcome, is required to notify the ATS Sardinia (territorially competent Health Authority) within 24 hours.

In the event of a positive result (rapid or molecular swab), the following instructions must be strictly followed:

- Do not return to the Health Testing Center
- Return to the domicile and / or residence (owned house / rented house / hotel / other)
- Stand in isolation and wait for communication from the ATS for active surveillance.
- Communicate the result to the general practitioner or pediatrician (in the case of a minor).
- **It is not possible to travel with a positive COVID-19 Test.**

Mater Olbia Hospital and Geasar SPA, the Olbia Airport management company, **have no possibility or authorization to manage positive users and therefore cannot organize any transfers to the place for the purpose of isolation** (residence / domicile / home). We therefore invite you to consider in advance the possibility of a positive outcome and, where possible, anticipate its management in good time.

We remind you that any non-compliance with the above indications may lead to a complaint by the local authorities; It is therefore necessary to comply with the mandatory measures provided by the Italian Health Authorities in order to avoid the transmission of the virus.
